

Dr. Deimel Underwear

(LINEN-MESH)

A great deal of the sickness in the world is caused by unsanitary woolen underwear. But most underwear is made of linen which, while being clean, has the great disadvantage of being cold and clammy.

By a special process of manufacture, a soft, warm, porous fabric has been evolved by Dr. Deimel, called Linen-Mesh, which is simply linen with the coldness taken out.

Dr. Deimel Underwear has obtained the unqualified endorsement of the foremost members of the Medical Profession and in every part of the globe gives health and comfort—summer, winter, spring and fall.

This underwear is made in such a wide variety of sizes that we can fit everybody.

A sample piece of the material and an illustrated booklet will be given free for the asking.

MONEY FOR LEGISLATURE

Plenty of Bother to Get and Administer the Fund.

The subject just now occupying the thoughts of the members of the Legislature, as well as the Territorial Central Committee, is the expenditure of the thirty thousand dollars appropriated by the Federal Congress for the expenses of the Legislature of Hawaii for 1907. It appears that the money is to be disbursed through the office of the Secretary of the Territory, and he is to furnish bonds not to use any part of it unless he has positive assurance that the session will be completed within the sixty days.

Persons familiar with the expenses connected with a session say that the sum allowed by Congress will not be sufficient for it and that it will be impossible to get through with the sum allowed. In the past there has been considerable graft in translating and typewriting the bills, but, excluding this, it is stated that thirty thousand dollars will not cover the bill. The figures supplied are those of the last session and are as follows:

Salaries and mileage.....	\$19,500
Cost of journals.....	7,500
Clerical force, Senate.....	1,770
Clerical force, House.....	2,280
Chaplain.....	300
	\$31,320

This, it will be observed, does not contemplate the payment for interpreting, printing nor typewriting. Some of the bills have to be typewritten many times owing to changes, so that each change may be noted and the whole bill from its first draft to the final bill may be compared. This all means money.

Representative Hughes has a plan for saving the salary of a chaplain. He would dispense with the services of a regular official in this capacity for the session and would have the Legislature call upon the different religious denominations to provide a chaplain each week, the different denominations to alternate.

Mr. Hughes has some excellent ideas governing the rapid discharge of the duties. He would have the bills in conformity with the platform of the Republican pledges disposed of first, and when that is done the appropriation bill would be immediately taken up for action. He thinks that in this way the session may be closed on time.

The law committee of the Territorial Central Committee held an executive session yesterday for the purpose of considering matters to be presented to the Legislature at the coming session. It was supposed that this committee would learn from the Secretary the exact condition for the disbursement of the money, and when this information is obtained arrangements will be made accordingly.

HOW POLITICIANS VIEW IT.

The Federal appropriation of \$30,000 for legislative purposes in the Territory, which is regarded by the local politicians as rather a mixed blessing, is not intended to cover all the expenses of the coming Legislature. Its scope is strictly limited to the items specified in the act providing it, which reads in part:

"For legislative expenses, namely: Furniture, light, stationery, record castings and files, printing and binding, indexing records, postage, ice, water, clerk hire, mileage of members, incidentals, pay of chaplain, clerk, sergeant-at-arms, stenographers and messengers, thirty thousand dollars: Provided, That the members of the Legislature of the Territory of Hawaii shall not draw their compensation of two hundred dollars, or any mileage, for any extra session held, in compliance with section fifty-four of an act to provide a government for the Territory of Hawaii, approved April thirtieth, Anno Domini nineteen hundred."

From this it will be seen that no provisions are made for payment of sessional indemnities for members, for interpreting during the session nor for translating bills and statutes into Hawaiian. These latter two are going to be stumbling blocks and probable complications are threatened. The one item for printing, for instance, provides only for printing in the official English language. The items of expenditures will be scrutinized at Washington and all other printing bills will most probably be thrown out.

This appropriation, too, places the Secretary of the Territory in a somewhat peculiar position. To secure the fund it is necessary that he shall file a personal bond for \$20,000 and be held under it responsible for the disbursement of the fund. To protect himself it will be necessary, therefore, that he exercise an auditor's power over the appropriations to be paid from it, although the Legislature will be independent of him in passing the appropriations. Then, too, the fund is only available provided that no extra session is held at which the members vote themselves an indemnity, thus tying up the \$30,000 until after the time during which an extra session can be called has passed.

In all case of dispute the final arbiter is the Secretary of the Treasury at

Washington, and this opens up a prospect of a drawn-out correspondence, encumbered by yards of red-tape. It is understood that Secretary Atkinson has not yet filed the bond required to make the thirty thousand available.

A HABIT TO BE ENCOURAGED.

The mother who has acquired the habit of keeping on hand a bottle of Chamberlain's Cough Remedy saves herself a great amount of uneasiness and anxiety. Coughs, colds and croup, to which children are susceptible, are quickly cured by its use. It counteracts any tendency of a cold to result in pneumonia, and when given as soon as the first symptoms of croup appear, it will prevent the attack. This remedy contains nothing injurious and mothers give it to little ones with a feeling of perfect security. Sold by Benson, Smith & Co., Ltd., Agents for Hawaii.

ARRANGE FOR A LADIES' NIGHT

The Hawaiian Swimming Club met last evening at the Hotel Baths and decided to hold a ladies' night on Saturday evening, January 26.

On the above evening it is proposed to hold an aquatic exhibition, in which many new and startling features will be presented. The club is composed of twenty human fish and they can do anything in the water. Of course, there will be the usual races and stunts that go to make up a pleasant evening's entertainment. This night will give the public the first chance to witness an exhibition at the new baths.

The Swimming Club also amended the by-laws, so that the Myrtle and Healan boat clubs can pull off their annual event at the baths on the 16th and 23rd of February. A new silver cup, the finest ever offered for an aquatic event, will be put up for the two teams to contest for.

Both the Myrtles and Healanis have sent away for new racing suits and they will be here for the big event.

Geo. Cooke has agreed to coach the Oahu College water polo team, who are to meet the Diamond Heads. Cooke was at one time the captain of the Yale polo team.

THE M'CANDLESS BRIEF ON LANAI

The reply brief of Judge Gear, attorney for L. L. McCandless, in the injunction proceedings taken out against the sale of the island of Lanai, to the brief of the respondent, the Land Commissioner, was filed yesterday. This brief is filed to show the interest in law of McCandless in the Lanai transfer, asked for by Judge De Bolt.

The brief recites the fact that the island of Lanai is now under lease and is producing a revenue for the government and the proposed exchange does not specify that income producing property will be secured by the government. As a taxpayer McCandless has an interest in the income of the government and a right to enjoin the Land Commissioner from making the proposed exchange.

Another ground for objection is that the exchange is tantamount to a sale, whereas the sale of public land by the Land Commissioner in amounts greater than 1000 acres is beyond his power conferred by law.

The brief contains a general discussion of the land policy of the administration and the ideas of President Roosevelt concerning the desirability of establishing here a substantial middle class of citizens.
